

MODULAR MACHINE GUARDING

DESIGNED TO AS/NZS 4024

PROGUARD

Our simple design makes the guarding easy to install and is flexible enough for you to customise to suit your specific requirements.

KEY FEATURES:

- Modular design
- No welding required
- Panels can be installed horizontally or vertically
- A more cost effective guarding solution than individual guards

PROGUARD

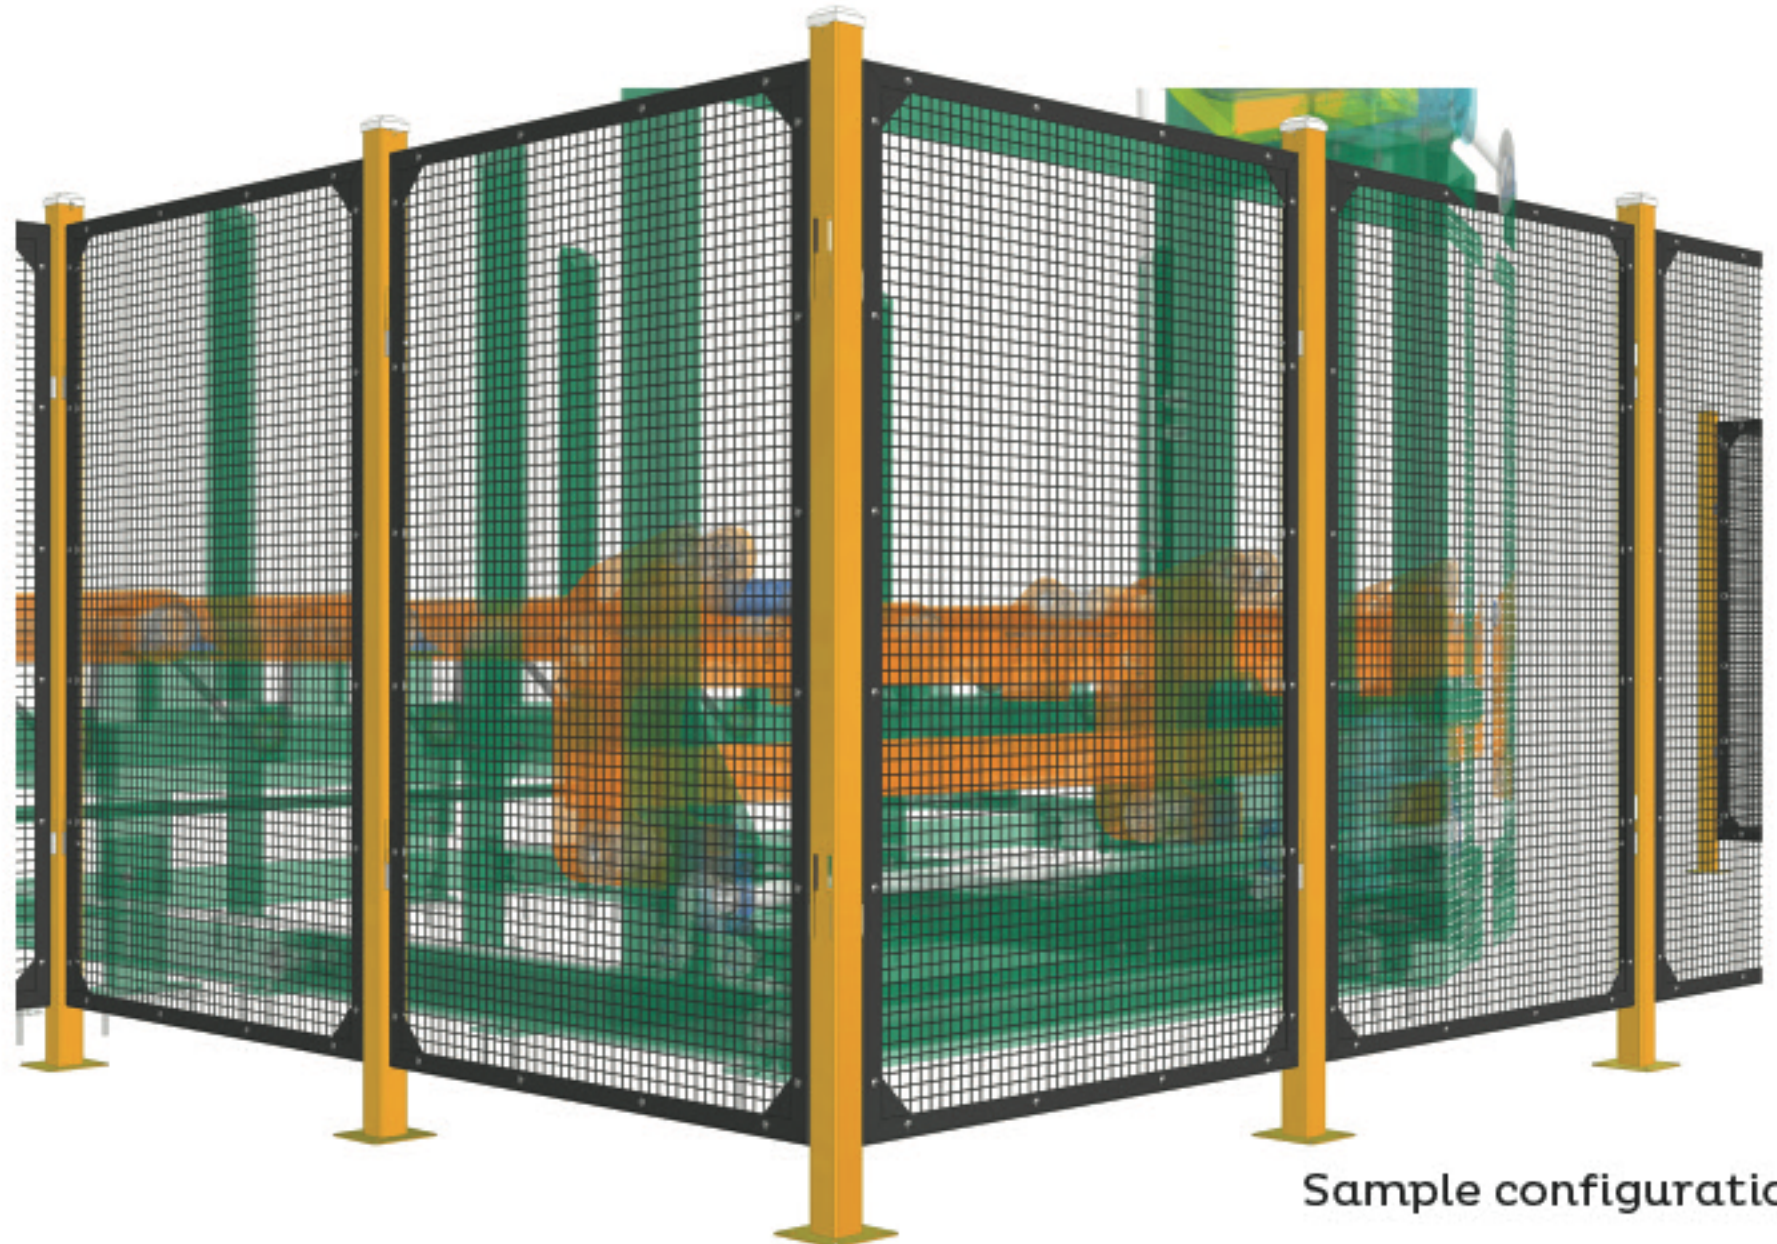

NZ MADE MODULAR MACHINE GUARDING

The powder coated steel frames are strong and hard wearing. Because our guards have a bolted connection it is easy to dismantle allowing access to machines for servicing and repairs.

FEATURES

- Safety fencing designed to AS/NZS 4024
- Modular design so cost effective
- No welding required
- Quick installation-bolt in place
- Easy to dismantle to allow access to machinery for servicing and repairs
- Panels can be fitted horizontally or vertically
- Custom option available to suit your requirements

Sample configuration

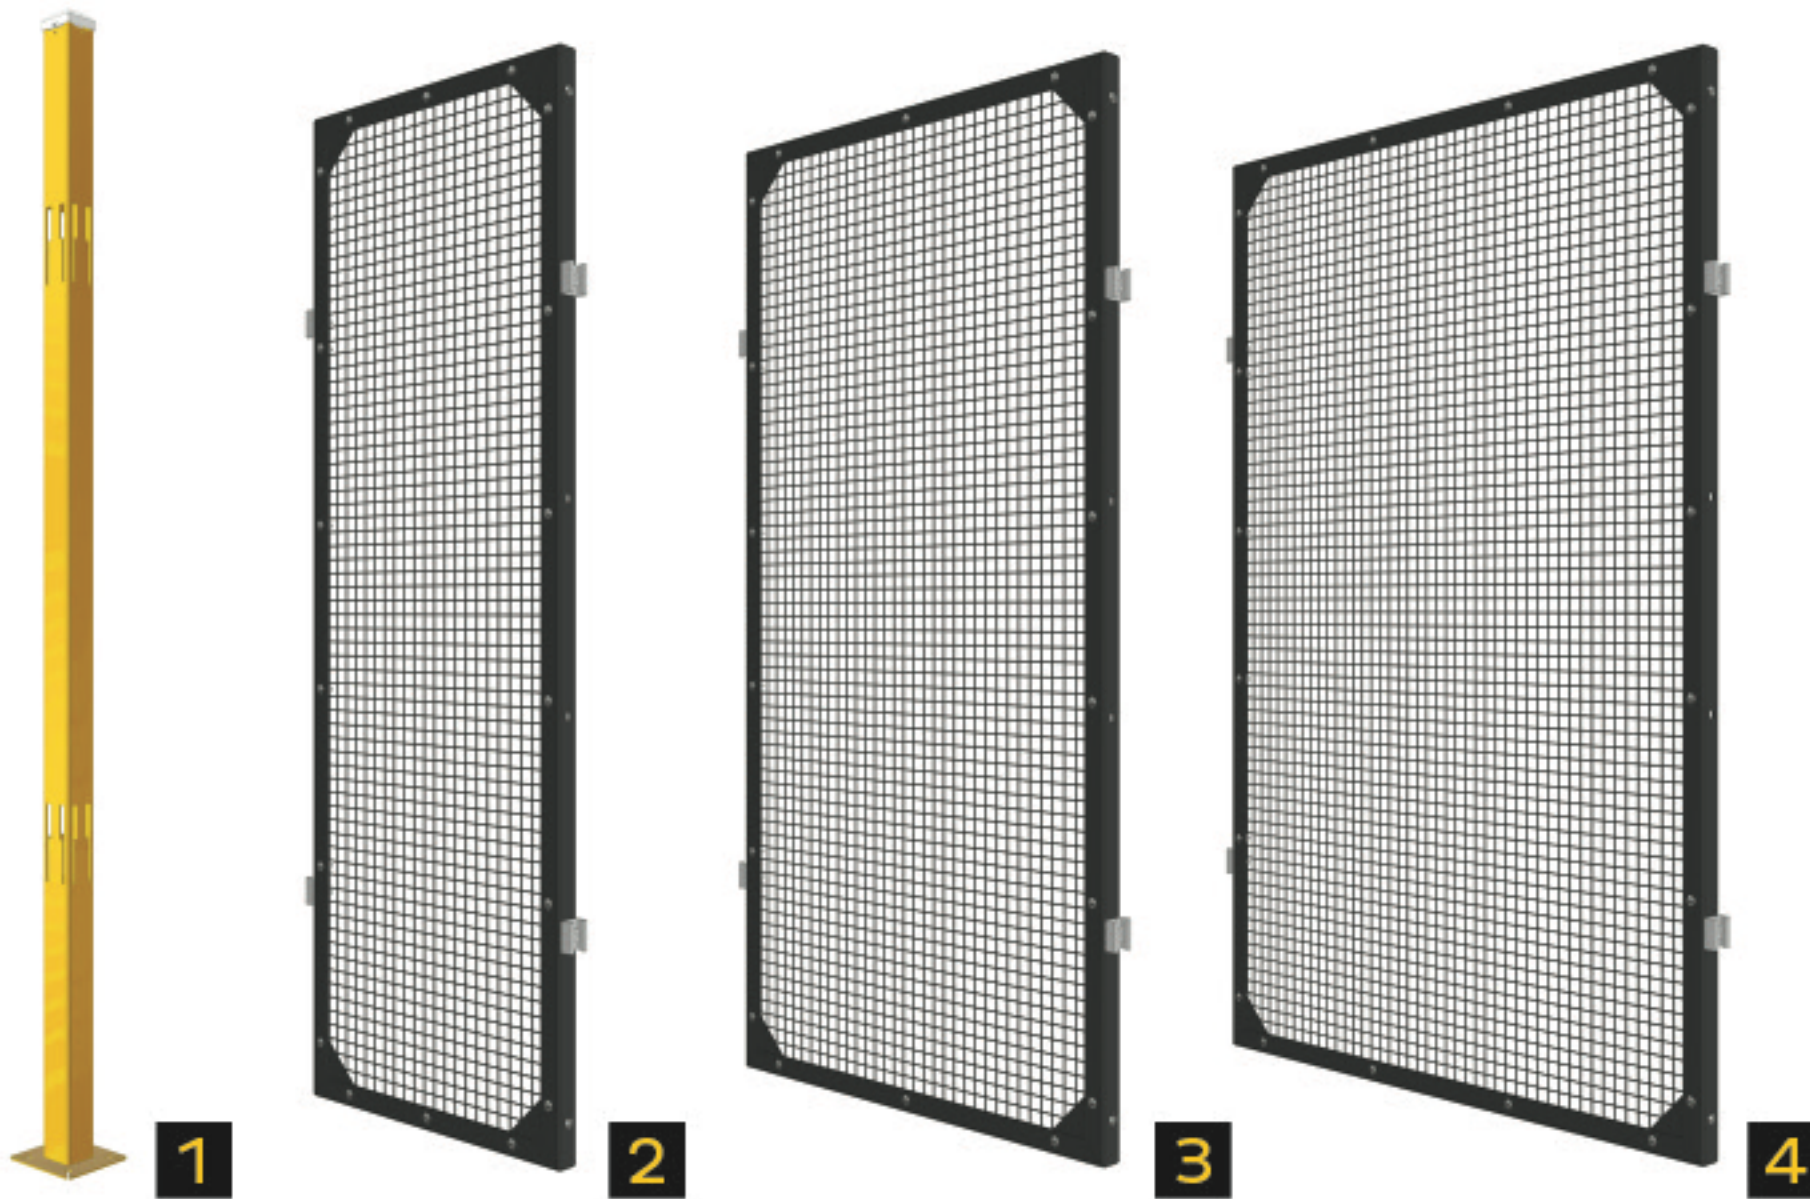

APPLICATIONS

- Machinery guarding
- Nip guarding
- Distance guarding
- Safety walkways and platforms for access
