# Matrix Design Group

**Matrix** is an engineering and products company that specializes in providing innovative safety solutions to the mining and industrial industries.

From industry-leading IntelliZone Proximity Detection Systems (PDS) to our newly released OmniPro Visual Artificial Intelligence (VAI) Proximity Detection / Collision Avoidance System(CAS), Matrix products are designed to be fit for purpose, user-friendly, and customizable to meet the needs of their clients.

With offices and partners in Queensland, New South Wales, South Australia, and Victoria.

Matrix is well-positioned to accommodate products and services to the industrial and mining markets.

Matrix's products and services are helping to make mining and industrial operations safer, more productive, and more efficient.

*Matrix Design Group is a safety and productivity technology leader for mining and industrial applications. We provide hardware, software and analytics platforms that deliver leading-edge products and actionable insights to our operators.*

# Products and Services

Matrix Design Group's products and services are designed to help mining and industrial companies improve safety, productivity, and efficiency.

The company's products are used by some of the world's largest mining and industrial companies, including BHP Billiton, Rio Tinto, Anglo American, Glencore and Vale.

Matrix Design Group is a recognised leader in the safety and productivity technology industry.

The company has won numerous awards for its innovative products and services, including the NIOSH Mine Safety & Health Technology Innovation Award in 2020 and 2021.

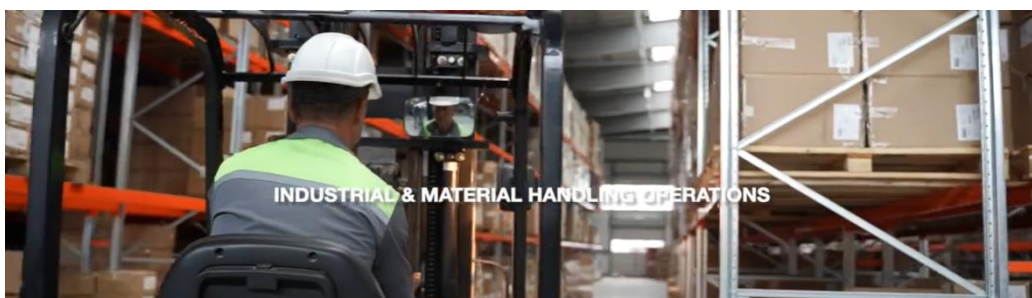

Matrix has a strong focus on R&D and is constantly working to develop new and innovative solutions to meet the needs of its customers and the industry.

## Core Products

*Matrix Design Group provides a wide range of products and services, including:*

- **IntelliZone Proximity Detection Systems (PDS) for underground coal mines and hard rock mining.**
- **OmniPro Visual Artificial Intelligence, Collision Avoidance Systems (CAS) for Mining, Tunnelling, Construction and Industrial Operations**

# Other Services

Matrix is committed to providing its customers with the best possible services. The company has a team of experienced engineers and technicians who provide customers with the support they need to achieve the best results and benefits out of their products and investment.

Matrix Design Group is a full-service provider of safety and productivity technology solutions for the mining and industrial industries.

Matrix is both an R&D company, developing many of our core products from component level and developing our own IntelliView and InFocus software suites, as well as the Original Equipment Manufacturer and distributor for a range of products.

Our innovative product line includes systems data networking, communication & Tracking, Mining Proximity Detection, Industrial Collision Avoidance and Data & Analytics software.

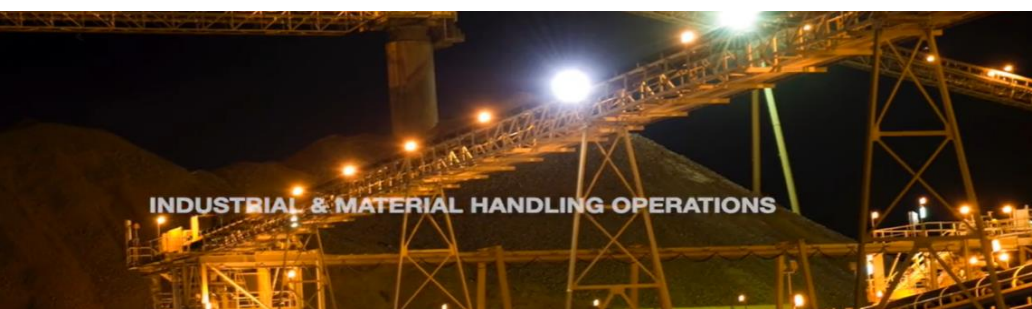

The Matrix Team embraces the concept of hard work, working smart, and collaborating on product development with our customers and strategic partners. As technology evolves, Matrix incorporates the latest innovations, such as artificial intelligence, cloud management, and real-world analytics into our next-generation products.

## Other Services

*In addition to its safety and productivity technology products and services Matrix also offers a variety of other services, including:*

- **Engineering Design**
- **Engineering Consulting**
- **Training**
- **Support**
